

JERRY'S NUGGET CASINO
1821 LAS VEGAS BLVD NORTH - NORTH LAS VEGAS, NV 89030
702-399-3000

Jerry's Nugget Casino was established in 1964 when owner's Jerry Stamis and Jerry Lodge purchased Mordell Earl's property in North Las Vegas, Nevada. The property, then known as the Town House Bar was rebuilt as an 80 foot by 80 foot casino housing a restaurant, bar, keno lounge, a craps table and 100 slot machines.

In 1968 the owners of Jerry's Nugget bought out their closest competitor, the Bonanza Club, which hosted the city's tallest sign, the famous oil derrick. This acquisition added an additional 10,000 square feet. The expansion included a 400 seat Bingo Hall, along with more valuable casino real estate allowing games inventory to increase to over 300.

As Jerry's Nugget continued to grow in recognition and increase their loyal customer base, further property enhancements were warranted. In 1982 a major re-construction took place, transforming the property to a full-service casino with a Race and Sports Book, Keno Lounge, restaurant, video arcade, two bars and nearly 700 slots, video poker and keno games. Purchase of adjacent property allowed for additional parking and future expansion.

The multi-million-dollar, 1996 expansion to Jerry's Nugget brought a theater lounge which includes a complete stage area with a state of the art sound system and a full service bar, a gourmet dining venue - the Magnolia Room, state-of-the-art kitchen facilities and an in-house bakery, plus more gaming space for slots, video poker and table games. Additionally, the exterior of the casino received a face-lift with a new porte cochre entry complete with a marble fountain in a garden setting boasting statue artifacts and Victorian lamp posts. Complete landscaping design was done throughout the property.

Today Jerry's Nugget Casino structure is 96,650 square feet with over 50,000 square feet of gaming space. The property includes 350 parking spaces situated on over 15 acres of real estate. Jerry's Famous Coffee Shop has gained recognition and awards throughout the Las Vegas Valley. The Cornucopia Snack Bar plus Jerry's Nugget Bakery also provide outstanding food product and service. The gaming entity consists of over 500 of the latest slots and video poker games, ten table games, race and sports book, keno lounge and a 200-seat bingo hall. The Royal Street Theatre provides live stage entertainment.

As one of the very first gaming establishments to cater to the "locals" market, Jerry's Nugget Casino has built their business on a reputation of consistent quality and service. The executive management of Jerry's Nugget has maintained a philosophy of creating a friendly customer-oriented atmosphere with exemplary attention to detail.
