

HEXBREAKER

Inspired by the original Hexbreaker® Video Slots, this edition challenges players to “Break the Hex” and change their luck.

The theme employs a dynamic MultiWay® interface with up to 59,049 ways to win!

Horseshoe symbols are available on all five reels. When a horseshoe symbol lands on a reel, the reel height expands to add additional ways, creating big-win opportunities.

Luck Zone prizes sit at the top of each reel and are awarded when a reel grows tall enough to reach one of the prizes. Multiple Luck Zone prizes may be awarded at once.

Credits: players can win up to 5,000 bonus credits which are multiplied by the bet multiplier

Free games: can be triggered through both the Luck Zone and the base game. Players are awarded unlimited free games, with the reel interface flipped upside down and “good luck” icons replacing the traditional “bad luck” icons. “Hot bet” levels give players the ability to shop different bet levels that may have reels which are closer to more valuable prizes in the Luck Zone
